Simply advanced.

The imageRUNNER ADVANCE C2200 Series delivers efficient workflow in a small footprint to help workgroups, branch offices, and small businesses work faster and smarter. Business processes are seamlessly integrated, and a streamlined user experience enables high performance and productivity. From every point of view, these models are simply advanced.

People-Centric
An exceptionally intuitive, simple-to-use interface puts access to all functions right at your fingertips, whether at the device or at your desktop.

Collaborative
Work better together—your teams will have the ability to access and leverage the capabilities of other connected imageRUNNER ADVANCE devices on your network.

Mobile
Even on the go, you’re in control. Print from a laptop, tablet, or smartphone to an imageRUNNER ADVANCE system.

Cloud-Enabled
A touch of a button on the user interface lets you access, scan to, or print directly from certain cloud applications.

Security
Multilayered solutions safeguard confidential information and, with certain options, support security compliance.

Connected
Advanced technology and expansive enterprise applications work seamlessly with your device to deliver exceptional results.
The imageRUNNER ADVANCE C2200 Series allows each user to accomplish tasks quickly and effectively. And, these systems are readily customizable, delivering enhanced productivity to everyday workflow.
Engineered for adaptability
These intelligent systems help you achieve your goals of today and tomorrow. With the ability to smoothly integrate hardware and software solutions, the imageRUNNER ADVANCE C2200 Series lets you personalize applications to meet your organization’s changing needs. And it’s highly flexible, so you can easily add to, or update, your system with the quick deployment of settings and applications across your enterprise.

Designed for ease
Even with its compact size, the imageRUNNER ADVANCE C2200 Series is big on ease-of-use features, including a tiltable screen, quick-to-replace toner bottles, paper drawers that spring open at the touch of a button, and an optional USB keyboard.

Designed to fit
This compact design readily fits into small spaces, thanks to innovations such as Canon’s space-saving vertical toner transfer technology and the availability of an internal staple finisher that gives you professional-quality output without adding to the footprint.

Walk-up convenience
Easily scan to, or print from, a USB thumb drive. Browse folders and rename files. Even expand connectivity options to include memory media, such as an SD card or CompactFlash card.

A familiar experience
Users will be quick to master the imageRUNNER ADVANCE C2200 Series models—or any other imageRUNNER ADVANCE device. In addition to their easy-to-use features, Canon builds in consistency across the line, with all models using the same print driver and a readily familiar user interface. And that means less burden on IT resources as well.
Optimize connectivity. Leverage your fleet.

Compact yet powerful, the imageRUNNER ADVANCE C2200 Series is a highly effective digital communications center, integrating enterprise applications, connecting to the cloud, linking to other devices in your fleet, and giving you the freedom to work efficiently anywhere, anytime.

Extensive Print Solutions

Print Options
Canon’s proprietary high-speed UFR II print technology is standard with these models. Options, such as Adobe® PostScript® 3™ and PCL 5c/6, are also supported.

Control
Canon’s Driver Configuration Tool allows you to set specific defaults and custom profiles. You can control costs and enhance security by implementing features such as allowing only black-and-white and/or secured printing.

On the go
In an increasingly mobile world, people need the ability to work remotely while maintaining their productivity. Now Canon delivers advanced solutions that help to keep work flowing effortlessly from wherever you are.

Mobile devices
Print from, and scan to, your laptop, iPad® or Android™ tablet, and iPhone®, Android, or BlackBerry® smartphone. Access an imageRUNNER ADVANCE device to retrieve your job.

Cloud portal
Gain quick access to certain cloud-based applications right from your imageRUNNER ADVANCE device. Access or send documents directly from the cloud.

Right from your PC
Enjoy even greater control and convenience right from your PC. Use the new imageRUNNER ADVANCE Quick Printing Tool to print, fax, preview, and convert files to PDFs, as well as monitor the status of your system—all without even opening an application. imageRUNNER ADVANCE Desktop lets you manage and prepare documents, combine multiple formats, preview files, and select the finishing functions.
Easy collaboration

Inter-device connectivity
The imageRUNNER ADVANCE C2200 Series lets you connect with other networked models for true fleet integration. This leverages features including file-sharing from the Advanced Box folders of other Canon imageRUNNER ADVANCE devices, accessing remote address books, and more.

Advanced Anywhere Print
This serverless solution lets you print to a connected imageRUNNER ADVANCE system that has Advanced Box functionality. Once you conveniently and securely log-in at any supported device, you can then view and retrieve your print job.

Enhanced fax capabilities
These models support up to two fax lines and have the ability to leverage the fax function of another imageRUNNER ADVANCE model on the same network. The Job Forwarding feature automatically routes incoming faxes to other systems, users, or destinations.

Scan, Store, Distribute
You can easily save, store, and access scanned documents from multiple locations, including external memory media or another networked location. And, you can distribute scanned documents to multiple destinations—including e-mail addresses, faxes, and network folders—all in a single step. Scan documents directly into Microsoft PowerPoint® or a Searchable PDF format, as well as High Compression PDF/XPS, Adobe PDF Reader Extensions, PDF/A, and Encrypted PDF.

Integrate your imaging with enterprise applications
Canon’s Enterprise Imaging Platform middleware technology effortlessly links enterprise applications, such as Oracle® and SAP®, with Customer Relationship Management (CRM) systems like Salesforce.com®, ECM systems, and many others. The streamlined workflow automates complex business processes and offers easy access to information, saving both time and money.
Robust security. Centralized management.

In today’s networked world, you need greater control over your resources and data. The imageRUNNER ADVANCE C2200 Series delivers just that with the ability to configure a system, safeguard information, and track resources, right at your fingertips.

Powerful command
Canon's device management tools help keep you in charge at every step, right from your desktop or through the cloud. Easily install and replace devices, migrate settings and data to new ones, and distribute applications and settings across your network. Monitor a single device with the Remote User interface or an entire fleet with the imageWARE Enterprise Management Console. You can even receive alerts when supplies or service are needed.

Safeguard data
From installation to retirement, this Series offers multilayered solutions to safeguard information and help support security compliance. HDD Erase, a standard feature, removes latent images after each task to help safeguard your information during use and at end of life. A security chip with tamper-resistant hardware helps protect passwords and encryption keys. IPsec provides security for data as it traverses the network.

Maximize resources
These systems offer advanced tools to help you track, manage, and influence user behavior. Solutions such as uniFLOW analyze color output, encourage double-sided printing, and allocate costs by department, project, or client. Route jobs to the most cost-effective device, and get alerts when supplies are low.

Secure authentication
With the need to keep data secure, busy workgroups will appreciate the imageRUNNER ADVANCE Series’ serverless print environment. Users can print from anywhere within the network to any supported device via log-in authentication. This helps prevent printed documents from being left unattended.

Security Features

Document Security
- Document Scan Lock and Tracking
- Adobe® LiveCycle® Rights Management ES2.5 Integration
- Encrypted Secured Print
- Watermark/Secure Watermark
- Copy Set Numbering
- Encrypted PDF
- Digital Signature PDF
- Fax Forwarding
- Fax Destination Confirmation

Mail Server Security
- POP Authentication before SMTP
- SMTP Authentication

Network Security
- IP/MAC Address Filtering
- Port Filtering
- SSL Encryption
- Network Application On/Off
- USB Port On/Off
- Destination Restriction
- IPsec
- IEEE802.1X (Wire/Wireless)

Device Security
- IEEE2600.1 Certification*

Data Security
- HDD Lock
- Trusted Platform Module
- HDD Data Erase and Initialize
- HDD Data Erase Scheduler
- HDD Encryption
- Advanced Box Security
- Mail Box Password Protection
- Job Log Conceal
- Removable Hard Disk Drive

Logging/Auditing Security
- imageWARE Secure Audit Manager Express

Authentication
- Department ID/Control Card Systems
- Device Level Log-in (SSO-H)
- Access Management System (AMS)
- Function Level Log-in via AMS
- Authorized Send
- Common Access Card (AA-CAC)
- Universal Login Manager

Note: Some features may be optional.

* Not available at time of launch.
Dependable operation. Impressive results.

Produce professional-quality documents quickly and easily. The imageRUNNER ADVANCE C2200 Series provides eye-catching quality in a compact footprint—all with the reliable performance you expect from Canon.

Standout results
The imageRUNNER ADVANCE C2200 Series models give you the ability to print high-quality documents in-house, regardless of the size of your operation. Proposals, reports, brochures, and contracts are stunning in brilliant color or crisp black and white. The booklet finisher option allows you to create high-quality folded and stitched documents. And the internal finisher provides up to 50-sheet stapling capability—without demanding additional floor space.

Lots of uptime
Canon incorporates its signature reliability into every imageRUNNER ADVANCE Series model. Status notifications keep you ahead of the game, and toner bottles are easy to access. The waste toner bottle is readily replaceable by the user, further minimizing downtime. If the correct paper for a job is unavailable, the system begins the next job without delay. And with access to the latest technology and simple, clear upgrades, you can power through your tasks, giving you more time to devote to other business areas.

Powerful operation
Accomplish multiple tasks concurrently with the speed your work demands. These models have two dedicated processors that work together to accomplish multiple tasks simultaneously. And Quick Startup mode minimizes start-up time, so devices start up promptly to keep you working with outstanding efficiency.

Targeted, integrated solutions
With its brilliant architecture, the imageRUNNER ADVANCE C2200 Series offers true personalization, allowing you to gather, organize, and disseminate information to meet your unique challenges. Canon’s innovative MEAP® platform lets you develop custom solutions to meet specific workflow needs. And new levels of connector and link support enhance communication with existing systems as well as those you may acquire in the future.
Strong commitment. Eco-conscious solutions.

The imageRUNNER ADVANCE C2200 Series incorporates innovative, eco-conscious solutions that keep your business operating efficiently while helping to reduce your environmental footprint.

**A clear strategy**

Greater energy efficiency
From the inside out, the imageRUNNER ADVANCE C2200 Series is designed for high-energy efficiency and stellar performance. The combination of our fusing technologies and PQ toner helps lower overall energy consumption by minimizing power requirements and reducing energy use during warm-up and standby. With advanced technologies present in each model, the Series also meets ENERGY STAR® standards.

Minimize Environmental Impact
All suppliers are required to meet Canon’s stringent Green Procurement policy and environmental terms. This helps the company exceed the toughest global standards set by the EU RoHS Directive, which restrict the use of certain hazardous substances.

Reduction of CO₂ emissions
Through its Life Cycle Assessment (LCA) System, Canon has lowered CO₂ emissions by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed with less packaging to be the smallest and lightest in their class. They’re intended to help make transportation more efficient.

**A responsible way to work**

Canon knows that the world and the workplace need a greener workflow, and the imageRUNNER ADVANCE C2200 Series, registered in EPEAT®, delivers just that. Now you can seamlessly share and distribute digital documents and preview files to make changes prior to printing, helping to reduce the use of paper and toner. Print drivers are defaulted to duplex documents, encouraging two-sided printing to reduce waste. And with Secure Print, documents are sent to a device but not printed until a password is entered, contributing to a reduction in paper waste.

**Eco-conscious design**

Canon is making a difference through creative, ecological thinking. These imageRUNNER ADVANCE models employ certain components that are made with recycled plastic from retired products. And, Canon’s innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

Add options to boost productivity

Finishing Options

A Booklet Finisher-M1
- 2-tray, 3,000-sheet capacity
- Corner and double stapling up to 50 sheets
- Booklet-making up to 16 sheets

B Inner Finisher-F1
- 750-sheet capacity*
- Corner and double stapling up to 50 sheets

Staple Finisher-M1
- 2-tray, 3,000-sheet capacity
- Corner and double stapling up to 50 sheets

Other Finishing Options
C Inner 2-way Tray-F1
D Copy Tray-J1
E Inner Finisher Additional Tray-A1

Printer Options**
- PCL Printer Kit-AT1
- PS Printer Kit-AT1
- Direct Print Kit (for PDF/XPS)-H1

Security Options
- Universal Send Security Feature Set-D1
- Universal Send Digital User Signature Kit-C1
- Encrypted Secure Print-D1
- Secure Watermark-B1
- Document Scan Lock Kit-B1
- HDD Data Erase Scheduler
- HDD Data Encryption Kit-C1
- Removable HDD Kit-AE1

Accessibility Options
- Remote Operators’ Software Kit-B1
- Voice Operation Kit-C2
- Voice Guidance Kit-F2
- Braille Label Kit-F1
- ADF Access Handle-A1

Paper Feeding Options

B Cassette Feeding Unit-AF1
- 550-sheet x 2-cassette capacity
- 17 lb. Bond to 80 lb. Cover
- Supports up to 12” x 18”

C Envelope Feeder Attachment-D1
- 50-sheet capacity
- Supports COM10 No.10, Monarch, DL, ISO-C5

Other Paper Feeding Options
- Cabinet Type-D

* 350-sheet capacity when Additional Tray-A1 is attached.
** UFR II standard.

Note: For additional options and specifications, please refer to the back page.
Main Unit
Operation Panel: 7" WVGA Full-Color TFT Screen
Memory
Standard: 2GB RAM
Maximum: 2GB RAM
Hard Disk Drive
Standard: 80GB
Maximum: 80GB
Network Interface Connection
Standard: 10/100Base-TX/1000Base-TX
Optional: Wireless LAN (IEEE 802.1x via third-party adapter)
Other Interface
Standard: USB 2.0 (Host) x 2, USB 2.0 (Device)
Optional: Device Port (USB 2.0 (Host) x 2), Serial Interface Copy Control Interface
Copy/Print Speed (BW/Color, Letter)
C2230: Up to 34 ppm
C2235: Up to 40 ppm
First-Copy-Out Time (Letter)
As fast as 5.9 Seconds (BW) and 8.9 Seconds (Color)
Paper Sources (20 lb. Bond)
Standard: One 500-sheet Paper Cassette
One 550-sheet Paper Cassette
One 100-sheet Stack Bypass
Maximum: 2,270 Sheets
Output Paper Capacity (20 lb. Bond)
Standard: 250 Sheets (Inner Tray)
Maximum: 3,000 Sheets (w/E Staple Finisher or Booklet Finisher)
Output Paper Sizes
Cassette 1: 11" x 17", Letter, Executive
Other
Envelope Feeder Attachment (COM10 No.10), Optional: Monarch, DL, IS-C3, Tab Feeding Attachment Kit
Acceptable Paper Weights
Cassette 1: 17 lb. Bond to 32 lb. Bond (64 to 120g/m²)
Cassettes 2/3/4: 17 lb. Bond to 60 lb. Cover (64 to 163g/m²)
Bypass: 17 lb. Bond to 60 lb. Cover (64 to 220g/m²)
Warm-up Time
From Power On: 34 Seconds
From Sleep: 10 Seconds
Quick Start Mode: 7 Seconds
Power Requirements/Plug
120V AC, 60Hz, 7.5A/NEMA 5-15P
Dimensions (H x W x D)
36-1/2" x 22-1/4" x 26-3/4" (928mm x 565mm x 680mm)
Installation Space (W x D)
33-3/8" x 26-3/4" (846mm x 680mm)
Weight
Approx. 198 lb. (90kg)
Toner (Estimated Yield @ 5% Coverage)
Black: 23,000 Images, Color (C, M, Y): 19,000 Images

Document Feeder
Scan Method
Duplex Automatic Document Feeder
Acceptable Originals
Scan Speed (BW/Color, Letter)
Simplex: Up to 5/10 ppm (300 dpi)
Duplex: Up to 10/20 ppm (600 dpi)

Other

Fax Specifications
Maximum Number of Connection Lines: 2
Modem Speed
Super G3: 33.6 Kbps
G3: 14.4 Kbps
Compression Method: MH, MR, MMR, JBIG
Sending/Recording Size: Statement @ 11" x 17"

Store Specifications
Memory Media
Standard: USB Memory
Optional: SD, SDHC, CompactFlash, Memory Stick, Microdrive

Security Specifications
Standard
Department ID Management, Single Sign On, Access Management System (Device and Function Level Log-in), Secured Print, Trusted Platform Module, IPv6, Restricting Features (Restricting the Send Function, Restricting New Addresses on Address Book), SSL Encrypted Communication, SNMPv1/v3, MAC/IP Address Port Filtering, SMTP Authentication, POP Authentication before SMTP, HDD Initialize (Up to 9x), HDD Erase (Up to 3x), HDD Lock, IPsec, Adobe LiveCycle® Rights Management E52.5 Integration

Print Specifications
Engine Resolution: 1200 x 1200 dpi
PDF Support
Standard: UFR II
Optional: PCL 5c, PCL 6, Adobe PS 3
Print Driver Supported OS
UFR II, PCL 5c/6, Adobe PS 3, Windows® (XP) / Windows Vista® / Windows 7 / Windows 8, Windows Terminal Servers, Microsoft® Clustering Server, Citrix, Macintosh® (OS X 10.2.8 or later, UFR II and PS 3 only), VMware, SAP (PS and PCL Only)
Direct Print Support
Standard: TIFF, JPEG
Optional: PDF, EPS, XPS

Universal Send Specifications
Sending Method
E-Mail, I-Fax, File Server (FTP, SMB, WebDAV), Super G3 Fax (Opt.)

Communication Protocol
File: FTP (TCP/IP), SMB (TCP/IP), WebDAV
E-mail/I-Fax: SMTP, POP3, I-FAX (Simple, Full)

File Format
Standard: TIFF, JPEG, PDF, PDF (Compact), PDF (Searchable), PDF (Apply Policy), PDF (Optimize for Web), PDF/XPS (OCR), PDF/A-Be, XPS, XPS (Compact), ODXL (OCR) (pdf)
Optional: PDF (Trace & Smooth), PDF (Encrypted), PDF/XPS (Digital Signature), PDF (Reader Extensions)
